

Card Safe™

The better memory card protector

Card Safe™ Basic

The Card Safe™ Basic is the allround talent within the Card Safe™ product family. With its unobtrusive onyx colour, it discreetly stores bigger-sized memory cards such as Compact Flash, Memory Stick or MMC. Thus, the Basic is the ideal accessory for all users of digital photo and video cameras.

Inside the Card Safe™ Basic, memory cards are protected against humidity and dust as well as electrostatic charge. Four compartments offer space for several different memory cards. Through the transparent windows, users can directly see which card is kept in which compartment.
