

# Card Safe™

The better memory card protector

## Card Safe™ Extreme

Sailing close to the wind or climbing right to the top: the Card Safe™ Extreme is ready for (almost) everything. It is the top of the range of all Card Safe™ products. Like all other Card Safes™ it protects memory cards against dust, humidity, shock and electrostatic charge. In addition, it is water and climate proof – thus fit for the next adventure trip into the desert. To ensure its outdoor quality, the Extreme has a reinforced hinge with a stainless steel pin and a connector to fix it at the belt or the camera bag.

Inside the Card Safe™ Extreme you'll find four compartments for bigger-sized memory cards such as Card Flash or Memory Stick.

The Card Safe™ Extreme adapts to its surrounding in unobtrusive onyx or sticks out in blazing neon. Following current trends, it is now also available in ice blue and rosso.
